About Frontline Medical Services

Frontline Medical Services, LLC is a Service Disabled Veteran Owned Business offering a complete line of adult and pediatric braces. We are proud of the fact that all of our products are manufactured here in the United States. American pride, integrity and hard work has made America and our company what it is today!

K8-U Knee Support

Features:

- 1/8" nylon, 2 sides neoprene
- patellar opening for positioning and comfort
- universal felt buttress
- upper & lower circumferential straps
- medial and lateral spiral stays

K67 "The Hybrid"™ Knee Brace

Features:

- 3/16" nylon, 2 sides neoprene
- patellar opening for positioning and comfort
- anterior wrap around closure on top, closed bottom around calf area—better fit for the cone shaped leg
- upper & lower circumferential straps w/posterior adjustable elastic segment
- open popliteal
- adjustable and covered stainless steel hinges w/hyper extension stop
- boot pulls
- fits right or left knee

Product Variation:

- K67-H w/covered multi-position hinges
- K67-HT w/high tech hinges
- K67-S w/medial and lateral spiral stays
- K68-17" hybrid knee support

Patent Pending

K404 Patella Knee Support w/Exclusive Positive Control Strip

Features:

- 3/16" nylon 2 sides neoprene
- patellar opening for positioning and comfort
- inverted horseshoe contains sewn in loop for dynamic pull loop
- lower strap has guide for positive positioning and control of patellar strapping
- upper & lower circumferential straps
- medial and lateral spiral stays

U.S. Patent Des. 362,305

K-196 Low Profile Wrap Around Patella Stabilizer Universal Dual Dynamic Pull Buttress

Features:

Dual Dynamic Pulls:

1. straight "C" pull tabs
 2. crisscross "X" pull tabs
- 1/8" UBL, 1 side nylon, 1 side neoprene
 - patella opening for positioning and comfort
 - two posterior closures w/anchor tabs for easy application
 - universal left or right dynamic pull tab buttress for desired pressure on the patella
 - shark skin buttress material grips the skin to control patella

Patent Pending

Sizes:

measure around the knee center with leg extended:

XS-S	12"-14"
XL-2 XL	17"-20"
M-L	14"-17"
3XL-4 XL	20"-23"
Custom	24" and up

K15 Patellar Stabilizer

Features:

- ½" nylon; 2 sides neoprene
- patellar opening for positioning and comfort
- patellar pull-panel w/adjustable straps
- ¼" tubular, enclosed j-pad buttress
- medial and lateral spiral stays
- specify right or left

Product Variation:

- K25 w/additional adjustment on pull-panel

K44-OP Patella Stabilizer w/Universal Lateral Buttress

Features:

- ½" nylon, 2 sides neoprene
- patellar opening for positioning and comfort
- large, popliteal opening
- universal neoprene buttress w/dynamic pull-tabs to adjust pressure from outside of support
- upper & lower circumferential straps
- medial and lateral spiral stays

ROM-ES:

Four straps; full shell pads or cooler EZ pads; length adjustment from 15-25 inches; Drop locks fixate hinges at full extension; multiple extension and flexion stops (in 10 degree increments); velcro tab strap closures or buckle closures (with full shell pads only); Synergistic Suspension Strap

Potential Users

- patients who require post-operative fixation and/or range of motion control
- patients who have knee injuries that require short term stabilization

Size:

universal (length adjustment from 15"-25")

Townsend Design is a leading manufacturer of orthopedic braces

B-Cool™ Knee Immobilizer—Universal

Features:

- ideal knee immobilizer for any indication requiring cold compression
- inside terry pockets accommodate 2 gel packs for cold compression of the joint area
- two movable stays for medial and lateral placement
- contoured reinforced posterior stays for extra rigidity
- soft navy blue foam laminate material adds comfort and shows less staining
- elastic hook and loop straps allow for added compression
- may also be used as a standard universal knee immobilizer without ice
- **B-Cool™ ice packs sold separately**
- latex free

Product SKU: 0814 2641–0814 264

SPRINT® Ankle Stabilizer

- designed to help support and protect unstable or injured ankles
- dual chamber design combines lightweight gel/air and closed cell foam materials for maximum support, compression and cold therapy
- pre-inflated upper air bladder helps provide additional support and comfort
- anatomically contoured universal shell fits either left or right ankle
- adjustable heel pad, vertical side straps and swivel straps provide easy application and proper fit
- regular and small for acute indications
- trainer/sport narrow design primarily for chronic indications
- latex free

AS 1™ Ankle Stabilizer with Valve

- designed to help support and protect unstable or injured ankles
- bladder can be inflated to desired compression level
- bladder combines air and foam for maximum patient comfort
- re-engineered shell is lighter in weight but stronger, yet conforms to the ankle with minimal bulk in the shoe
- anatomically contoured universal shell fits either left or right ankle
- adjustable heel pad, vertical side straps and swivel straps provide easy application and proper fit
- latex free

0814 0742	Small	8 1/2" Height	Each
0814 0743	Trainer/Sport	9" Height	Each

TSB Walker

TSB walker with aluminum shells and fixed (90°) full height or mid-calf struts and exclusive StableLock.

Townsend’s top-of-the-line TSB features an adjustable, semi-rigid posterior shell that allows you to align the midline of the leg with the center of the uprights, ensuring the proper weight-bearing line is achieved.

TSB—with metal shells and StableLock

TSB-MC—with shorter struts and StableLock

- optional pneumatic bootie for increasing stabilization and compression

Potential Users

- patients who have foot or toe injuries or surgeries
- patients who have grade 1, 2 or 3 ankle sprains
- patients who have stable or internally fixed fractures of the foot or ankle

Note: contraindicated for unstable fractures or fractures of the proximal tibia or fibula

TSB Sizing:

Small:

Men’s Shoe Size..... 3 ½–7
Women’s Shoe..... Size 4 ½–8

Medium:

Men’s Shoe Size..... 7–10
Women’s Shoe Size..... 8–11

Large:

Men’s Shoe Size..... 10–13
Women’s Shoe Size..... 11–15

Extra Large:

Men’s Shoe Size..... 13–16
Women’s Shoe Size..... 15+

Note: upright lengths vary based on the boot model and size.

Townsend

W57 Thumb and Wrist Support

Features:

- 1/8" nylon, 2 sides neoprene
- hook and loop closures
- specify right or left hand

E15 Hyper extension Poly centric Hinged Elbow w/"E-Z-E" Bicep Closures

Features:

- 1/8" nylon, 2 sides neoprene
- covered, poly centric hinges w/hyper extension stop
- 2 loop and lock crisscross straps to help prevent hyper extension
- bicep hook and loop closures

E6 Tennis Elbow Strap w/Gel Pad

Features:

- 1/8" nylon, 2 sides neoprene
- covered gel pad
- circumferential loop and lock strap w/elastic segment

E1 Elbow Sleeve

Features:

- 1/8" nylon, 2 sides neoprene
- 10" length
- provides warmth, compression and protection

Dual Hinge Low Profile Elbow Brace:

Low profile hinges with flexion stops at 90, 100 and 120 degrees and extension stops at 0, 15, 30, 45 and 90 degrees (90 degree stops can be offset to lock the hinges); Adjustable/removable semi-rigid shells; soft interface pads and velcro tab strap closures.

Dual hinge low profile brace features adjustable shells and hand position

Potential Users

- Patients who require post-operative fixation and/or range of motion control
- Patients who have elbow injuries that require short term stabilization

Low Profile ROM Elbow (Dual Hinges) With Shells And Optional Hand Extension

Multi-Adjustment ROM Elbow

The Dual Hinge (DH) model is fabricated with rigid ABS plastic shells, and can be ordered with an optional bar and hand extension for increased stabilization and rotational control.

To determine size: Measure from the wrist up to the elbow crease. If this measurement is eight inches or less, then a size Small/Medium should fit. If the measurement is longer than eight inches, then it is best to order the Large/X-Large size. The shells will conform to the arm when the straps are tightened. Also, the length of the hand extension is adjustable.

Townsend Design ROM Post-Op Elbow Braces

Dual Hinge (DH) Size

- S/M
- L/XL

Townsend Design is a leading manufacturer of orthopedic braces

Universal Arm Sling

- can be folded to proper length to accommodate most patients
- no trimming necessary
- envelope style
- slide buckle on strap for easy adjustment
- neck pad on shoulder strap for added patient comfort
- hook and loop closure
- latex free

Product SKU: 0814 0015

Arm Sling with Foam Strap

- extra deep pouch for bulky casts
- breathable, cool cotton material
- soft foam strap for greater patient comfort
- hook and loop closure
- latex free

Product SKU: 0814 0791–0814 0795

Reorder #	Size
0814 0791	X-Small
